

Women's winter season Trophy's.

The trophy's for the 3 winter season championships for the club's women are finally being made. There will be a perpetual trophy for the women's 2 mile CCC, 4k CCC and 5k road race. All past winners will have their name engraved.

1. Ron turning the bases.

Christine has purchased, from Thomas the Jewellers, three hand cut glass Bohemian lead crystal vases in the shape of a Grecian urn. (How much *does* a Grecian earn?)

In the last few weeks, Ron Nicholls has once again generously given of his time to hand turn the bases. Ron, you might remember, did the bases for the men's trophies some years back. As usual, he has done a magnificent job, and the club is deeply indebted to him for volunteering to do this and for having the skill to do it so well.

2. Betty checks out Ron's handiwork.

For the benefit of newer members, Ron is the father of our handicapper, Rob Nicholls. Thirty years ago, Ron, with Ernie Bourke and Bill Sandford, worked so hard to get our clubrooms up and running and in a useable condition and we are still calling on his handyman skills.

The final step is to get all the engraving done, which will be a fairly lengthy process, but the trophy's will no doubt be ready for next cross country season.

3. The trophy so far.

These will be the equivalent of the 3 trophies which already exist for the men.

Kevin Ruddick
